***Terminal Disclaimer***

The terminal disclaimer filed on January 23, 2009 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US application 10/589,727 has been reviewed and is accepted. The terminal disclaimer has been recorded.

***Allowable Subject Matter***

Claims 17-35 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record does not teach or suggest swellable hydrogel polymers as claimed where the polymer includes up to 10% by weight of a hydrophilic polymer having a dendritic structure.

Winterton et al. (US 2003/0134132) teaches coating a hydrogel with a dendritic polymer (Example 2). However, Winterton et al. is concerned with molded medical articles (Abstract) rather than polymer particles. There is no motivation in the prior art of record to alter the article of Winterton et al. into a polymer particle of the claimed size.

Staples et al. (US Pat. 5,994,440) and Engelhardt et al. (US Pat. 6,150,477) are concerned with coated hydrogels with low dusting tendencies. Staples et al. teaches coating the hydrogel with a hydrophilic polymeric polyol (7:11-50). Engelhardt et al. teaches modifying the surface of the hydrogel with polyamidoamines (6:39-52). However, neither Staples et al. or Engelhardt et al. provide any teaching directed towards dendritic polymers. As persuasively argued by the applicant (pages 10-12) the properties of linear polymers and dendrimers can vary dramatically. As such, a person having ordinary skill in the art at the time of invention would not have been motivated to substitute a dendritic polymer for the linear polymers of the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
